## Really Basic Computer Skills Classes

This class is designed for new computer users who have little or no previous experience using computers, a mouse or the Internet, and little or no knowledge of basic computer terms.

Computer Basics: for those with little or no experience using a computer. Get to know the major parts of a personal computer and learn how to use the mouse and keyboard.

Internet Basics: choosing an internet browser, basic browser buttons, locating websites and information online, URL types, internet security.

Email Basics: setting up an email account, accessing your email, reading an email, deleting an email, sending an email, and email safety and etiquette. To set up an email account, you must have and bring your cell phone.
